ABSTRACT:

The retained earnings are the driving force for the internal source of finance. In this study, we focus on those determinants that impact the firms retained earnings. The sample size comprises energy sector which is listed on the National Stock Exchange (NSE) of nifty fifty in India. We collected the data for the period from 2011-2017 to analyse the determinants of retained earnings. By using multiple regression analysis, results indicate that positive influence on the retained earnings. Stating the +/- significance justification.

Keywords: Retained earnings, Determinants, nifty energy sector.
